FOODTECH Airlube Universal

Food Grade Airline & Air Tool Lubricant
Product Code: AVE

Product Description

Pennine Foodtech Airlube is a premium quality food grade airline / air-tool lubricant designed for use in airline lubricators. The product is manufactured to InS H1 standard for lubricants where incidental food contact may occur. Providing excellent lubrication and anti-corrosion properties, it is clean and non-staining, reduces residue build up and is ideally suited to meet the needs of compressed air operated equipment used in and around food manufacturing and handling areas.

Applications

Recommended for the lubrication of all kinds of components in air operated systems found in food and beverage plants where incidental food contact may occur. Such plants include bakeries, dairies, breweries, bottling plants, canneries, animal feed plants, food packaging manufacturing plants and a wide range of other food related areas. The purity of this product also enables it to find use in airlines in other areas where a colourless, odourless, non-toxic lubricant is required.

Typical Test Data

Foodtech Airlube	
Approval Number	1795432
Product Code:	AVE
ISO Viscosity Grade	15
Density @ 20°C	0.87
K. V. @ 40°C cSt	15
Flash Point °C	180
Pour Point °C	-12

Availability

Pennine Foodtech Airlube Universal is available in 1000 litre IBC's, 205 litre barrels, 25 litre drums and 5 litre plastic bottles.

Storage

Barrels of lubricant should always be stored in such a way that will prevent the ingress of water when stored in the open.

Certificate Number: 9480
