FOODTECH Ultratemp Chain & Conveyor Lube

Food Grade High Temperature Chain Lubricant

Product Code: AVG

Product Description

Pennine Foodtech Ultratemp Chain & Conveyor Lube is a premium quality food grade lubricant designed for use on chains and conveyors. The product is manufactured to InS H1 standard for lubricants where incidental food contact may occur. Based on synthetic hydrocarbons and incorporating anti-wear, anti-corrosion and oxidation inhibiting additives to enhance performance, it is fortified with PTFE to give improved boundary lubrication and forms a tenacious film which is resistant to water wash off.

Applications

Recommended for use on drive chains and conveyor bearings and slats as well as hoists, wire ropes, pulleys and many bearing applications found in food and beverage plants where incidental food contact may occur. Such plants include bakeries, dairies, breweries, bottling plants, canneries, animal feed plants, food packaging manufacturing plants and a wide range of other food related areas. The purity of this product also enables it to find use in other areas where an anti-friction, odourless, non-toxic lubricant is required.

Typical Test Data

Foodtech Ultratemp Chain & Conveyor Lube	
Product Code:	AVG
Colour	Translucent
Density @ 20°C	0.86
K. V. @ 40°C cSt	1,800
Operating Temperature °C	-32 to +220
Flash Point °C	234
Pour Point °C	-32
Approval Number	1795433

Availability

Pennine Foodtech Ultratemp Chain & Conveyor Lube is available in 1000 litre IBC's, 205 litre barrels, 25 litre drums and 5 litre plastic bottles.

Storage

Barrels of lubricant should always be stored in such a way that will prevent the ingress of water when stored in the open.

Certificate Number: 9480
