Rustguard Waxcoat

Long Term Corrosion Preventative

Product Code: AD6

Product Description

Pennine Rustguard Waxcoat is a solvent deposited waxy film rust preventative. It provides medium and long term protection to steel components and surfaces by providing both a physical and chemical barrier against rust. When applied, it dries to form a tenacious waxy film which repels water, provides a barrier between the steel surface and any corrosive environment, and helps to neutralise any corrosive agents in contact with the protected surface. Once applied, this product is designed not to run or sag even at moderately high temperatures.

Applications

Rustguard Waxcoat is recommended for use in both automotive and industrial applications. In the automotive industry Rustguard Waxcoat is used for the protection of vehicle underbodies during storage and warranty periods and is ideal for application into closed and semi closed box sections.

Industrial applications include the protection of machined components for long and medium term storage or transit, protection of tools and infrequently used measuring equipment as well as many other applications.

This product is applied by spray, brush, swab or dip. Once dry it leaves a firm waxy film which may be removed with simple solvent degreasing techniques.

Typical Test Data

Rustguard Waxcoat	AD6
Density @ 15°C	0.8
% Residue	25
Flash Point (°C)	38
Film Thickness (Microns)	25
Indoor Protection	3 Years
Covered Outdoor Protection	2 Years
BS3900(F2) Humidity (Hours)	>1000
ASTMB117 Hot Salt Fog @ 25l	400 Hours

Certificate Number: 9480
ISO 9001

Rustguard Waxcoat

Long Term Corrosion Preventative

Product Code: AD6

Availability

Pennine Rustguard Waxcoat is available in 1000 litre IBC's, 205 litre barrels, 25 litre drums and 5 litre tins.

Storage

Barrels of lubricant should always be stored in such a way that will prevent the ingress of water when stored in the open.

Health and Safety

Please refer to the relevant Health and Safety Data Sheet, a copy of which is freely available to all our customers.

Data represented is Typical of that obtained with normal production tolerances and does not constitute a specification. The policy of Pennine Lubricants is one of continual improvement, we therefore reserve the right to change specifications without notice.
