Ultracomp H4000 SC46

Premium Quality Screw Compressor Lubricant
Product Code: AB5

Product Description

Pennine Ultracomp H4000 SC46 is a premium quality 4000 hour drain interval compressor lubricant formulated from carefully selected, highly refined group III base oils. The product utilises an advanced ashless additive system offering improved anti-wear, anti-oxidant, anti-corrosion and anti-foaming properties providing ultimate protection and performance standards. The product exhibits outstanding oxidation stability coupled with low carbon forming tendencies on rotating components leading to improved operating efficiency and low oil consumption.

Applications

Pennine Ultracomp H4000 SC46 is recommended for the lubrication of a wide range of screw compressors particularly units operating under extreme temperature conditions where standard mineral oil-based products fail due to oxidation. The sophisticated additive chemistry permits for reduced maintenance frequencies whilst minimizing the risk of internal wear leading to dramatically reduced costs. Ultracomp H4000 SC46 is suitable for extended drain intervals of up to 4000 hours in accordance with the compressor manufacturers recommendations.
